What You Should Know About Protecting Your Company's Patentable Ideas.

Prevent your company from squandering competitive advantages.

This comprehensive and fundamental program offers valuable commentary and analysis from leading in-house business lawyers and experienced intellectual property counsel.

- Maximizing your IP assets.
- Determining which ideas to press and strategic markets to pursue.
- Developing policies and procedures to facilitate those ideas.
- When best to employ patent, trademark, trade dress, and trade secret law.
- Benefits of provisional patents.
- Effectiveness of PCT's and protecting patents abroad.
- Managing international counsel and international docketing.
